Let Your Valiant Journey Begin

WELCOME TO VALIANT WEALTH

We are excited to introduce you to our Valiant Wealth Family Office. Everyone moves through different seasons in life. We excel in helping you navigate through those seasons. From the birth of a child or grandchild, to career transitions and planning for your eventual departure from this life.

OUR SIX PILLARS OF SERVICE

− Family Financial Planning

We start with the basic building blocks of a financial plan: retirement planning, education planning and risk management (insurance). From there, Family Office clients can receive comprehensive reporting detailing our analysis of cash flow, retirement readiness, insurance and estate planning, and net worth.

+ Investments

+ Tax Investing

+ Business Retirement Planning

+ Private Equity Investments

+ Philanthropy

We chose the Registered Investment Advisor business model many years ago because of how it aligns our interests with those of our clients. Core to the client relationship are transparency, creativity and the fiduciary standard.

Through our Family Office offering, we help clients with the most complex financial lives. Many times we're helping them save time. Other times we are consulting with a client on a major business decision or we might be on the phone late at night helping a client deal with a identify theft situation.

In order to make informed financial decisions, you need to consider all aspects of your financial plan. Our job is to take care of, and report on, the things that are important to your financial future. Our clients have 24 hour access to their financial statements through the Wealth Management System. By linking in your other financial accounts, your account values and net worth statement are always up to date.
