Portfolio management and advisory services are provided by MarketRiders, Inc. (doing business as SogoTrade Asset Management ("SAM")), a registered investment advisor. Brokerage services are provided by SogoTrade, Inc. SAM provides discretionary advisory services for a fee. SAM and SogoTrade, Inc. are separate entities under common ownership.

Before investing carefully consider the underlying objectives, risks, charges, and expenses of the investment product. All investments involve risk, including loss of principal. Past performance does not guarantee future results. There is no assurance that the investment process will consistently lead to successful investing. Asset allocation and diversification do not eliminate the risk of experiencing investment losses. ETFs can entail risks similar to direct stock ownership, including market, sector, or industry risks. Some ETFs may involve international risk, currency risk, commodity risk, and interest rate risk. Trading prices may not reflect the net asset value of the underlying securities. Risks applicable to any portfolio are those associated with its underlying securities. For more information, please see the SAM [Disclosure Brochure](#) (Form ADV Part 2A).

Important Note: Options involve risk and are not suitable for all investors. For more information please read the [Characteristics and Risks of Standardized Options](#). Please note fees, commissions and interest charges should be considered when calculating results of options strategies. Transaction costs may be significant in multi-leg option strategies, including spread, as they involve multiple commission charges. SogoTrade does not provide tax advice. Please consult with a tax advisor as to how taxes may affect the outcome of options transactions/strategies.
