GuideStream Financial (<http://guidestreamfinancial.com>)

GuideStream Financial provides personalized financial planning and diversified investment management from a Christian stewardship perspective. GuideStream Financial's calling is to help guide clients through life's changing currents so they can more effectively achieve their long-term vision and goals.

More specifically, the financial plan, also referred to as a life plan, helps the individual think through their goals, dreams and personal calling. It provides a holistic approach that equips them to be good stewards of the assets and opportunities God has given them. Through this plan, and by exercising faith, discipline, and patience, a person can provide for their family and support ministry efforts of their choice and calling.

FM Investment & Loan Fund (<http://fmlf.org>)

The Free Methodist Investment & Loan Fund exists to assist ministries of the Free Methodist Church in the acquisition, construction and expansion of physical facilities by providing meaningful investment opportunities to members and friends of the church.

In addition to earning reasonable interest rates, investors in the fund experience the satisfaction of seeing their money used to expand the facilities and impact of Free Methodist Churches and affiliated ministries.

Estate & Gift Planning (<http://fmfoundation.org>)

The objective of **Estate & Gift Planning** is to facilitate professional consultation and comprehensive estate planning strategies for those with charitable hearts.

Estate and Gift Planning is a strategy as unique as the people we serve. It involves the way we acquire an asset, manage an asset and convey an asset to a new owner. As stewards, we are shepherding God's resources to care for our families and advance the Kingdom of God.
