Investment Management

(<https://www.unisonim.com/>)

Welcome to Unison Investment Management.

Unison has transformed the way homes are purchased and owned. We invest equity alongside homeowners and homebuyers in exchange for a share in the change in value when the home is sold. No debt, no monthly payments.

Housing is the largest asset class on earth, the largest component of CPI, and the largest part of GDP.

Unison has been investing in homes since 2006 across over 130 metros. We provide institutional investors, efficient, diversified access to residential real estate. We have developed proprietary technology which has assessed every home in the United States.
