LindeHansen uses its disciplined contrarian value strategy to build concentrated portfolios that invest in US equities. We believe owning the undervalued equity of companies expected to realize an improving trend in profitability is the best way to generate real returns over time and to control risk.

*Investors should carefully consider the investment objectives, risks, charges and expenses of the Linde Hansen Contrarian Value Fund. This and other important information about the Fund is contained in the prospectus, which can be obtained by calling (855) 754-7933. The prospectus should be read carefully before investing. The Linde Hansen Contrarian Value Fund is distributed by Northern Lights Distributors, LLC, member FINRA/SIPC.*

Our disciplined contrarian value strategy may not meet its investment objective and you could lose money by investing in the Fund. Our concentration in U.S. equities has the risk that changes in the value of a single security may have a significant effect on the Fund's value. Value investing involves the risk that such securities may not reach their expected market value, causing the Fund to underperform other equity funds that use different investing styles.
