Dedicated, Flexible Renewable Energy Project Lending

At MMA Energy Capital, we partner with developers, EPC contractors and system owners to provide project capital necessary to develop, build and operate world-class renewable energy systems.

Our Primary Investment Types

Our investment approach allows us to provide custom solutions around development capital, construction debt and project term debt. This allows our customers to effectively develop and build projects with the certainty that their capital needs will be met through an efficient and collaborative process

Development Capital

Construction Financing

Project Term Debt

MMA Energy Capital's team has a collective 90+ years of renewable energy development experience and project finance expertise. MMA Energy Capital is an affiliate of Hunt Companies, Inc. To learn more about Hunt, visit our website.
