WHY CHOOSE A CFP® PROFESSIONAL

Your financial security is too important to take any chances with, which is why you deserve to work with a CFP® professional. Only CERTIFIED FINANCIAL PLANNER™ professionals are rigorously trained in 72 areas of financial expertise and must accrue thousands of hours of experience prior to earning their certification. With a CFP® professional, you get a financial planner partner committed to working in your best interest and the confidence that comes with building a comprehensive plan.

Market Guard™ is an investment strategy that utilizes a Tactical Asset Allocation model, which is an active management portfolio strategy that shifts the percentage of assets held in various categories to take advantage of market pricing anomalies or strong market sectors. This strategy provides the opportunity to create extra value by taking advantage of momentum in the marketplace. Market Guard™ is comprised of a blend of technical indicators selected and monitored by Jenkins Wealth. Past

performance does not guarantee future results. As market conditions fluctuate, the investment return and principal value of any investment will change. Diversification may not protect against market risk. There are risks involved with investing, including possible loss of principal.
