*The Forbes ranking of America's Top Wealth Advisors rates thousands of wealth advisors on metrics like revenue trends, assets under management, compliance records and industry experience.

**Barron's magazine, October 20, 2014 issue. Advisors inducted into the Hall of Fame include those who were recipients of the Barron's Top 100 Independent Advisors ranking since the list's inception. The Barron's rankings are based on data provided by over 4,000 of the nation's most productive advisors. Factors included in the rankings: assets under management, revenue produced for the firm, regulatory record, quality of practice and philanthropic work. Investment performance isn't an explicit component because not all advisors have audited results and because performance figures often are influenced more by clients' risk tolerance than by an advisor's investment-picking abilities.

***Each year, Barron's ranks the nation's top independent advisors and Carson Wealth was once again recognized on this list, appearing as #2 in the US. Carson Wealth has appeared on the Top 100 Independent Advisors list each year since the list's inception.
