

Huizenga Capital Management

Value Added Partners

Huizenga Capital Management ("HCM") is an investment firm with a 28 year history and a global approach to investing. We invest directly in private opportunities (operating companies, real estate, oil and gas partnerships) as well as external money managers. HCM was founded by the Huizenga family in 1990.

HCM seeks to maximize long-term risk-adjusted returns by investing with great people and helping to build high quality businesses.

HCM's investment philosophy has been supported by the Huizenga family's long and successful history building businesses and opportunistically investing capital across asset classes in a range of industries, sectors and geographies.
