

Seidler Equity Partners is a private investment firm that partners with company owners and management teams to help them achieve their strategic vision to expand their businesses.

Our tradition of thoughtful, flexible capital solutions began with our origin as a family office in the early 1990's. We have since grown to become a global investment firm with more than \$1.5 billion of capital being managed by a deep team of experienced and talented professionals across both the U.S. and Australia.

We specialize in transactions most private equity firms are not well-equipped to complete: purchasing minority equity positions, using little or no debt, and providing an extended investment horizon. We believe that uniting your management team with a strong balance sheet and a trusted, effective business partner offers the greatest value creation potential for your business.

We are actively looking for opportunities to share our team's experience and resources with company owners who are passionate about their culture and are dedicated to growing revenue, expanding product and service offerings, and maximizing value.

"There is no question that our partnership with Seidler has been a critical factor in our success. Their experience, steady guidance and desire to support our management team helped us achieve our goals faster than we could have done on our own..."
