

EXPERTISE IN CREDIT STRATEGIES

ABOUT

Sound Point's primary investment objective is to preserve capital in all market conditions and to generate attractive rates of return with low volatility

Sound Point Capital Management, LP ("Sound Point") is an asset management firm founded in 2008 with particular expertise in credit strategies. Sound Point's primary investment objectives across our products are (i) to preserve capital in all market conditions and (ii) to generate attractive rates of return with low volatility.

Sound Point was founded by Stephen Ketchum and principals of Stone Point Capital (www.stonepoint.com), with a recent

minority investment from Dyal Capital Partners. Stephen Ketchum has over 28 years of credit structuring, advisory and investment management experience and a successful track record of building and managing teams. Sound Point's senior portfolio management team has an average of 22 years' experience in the credit markets.

Sound Point manages money on behalf of institutions, pensions, foundations, insurance companies, wealth

management firms, family offices and high net worth individuals. In total, as of April 30, 2019, Sound Point managed over \$20.8 billion in assets.

The Sound Point Floating Rate Income Fund has moved to the American Beacon platform and the fund's information can be accessed here [click here](#).
