

## About Us

Himalaya Capital was founded by Mr. Li Lu in late 1997. We manage one fund, Himalaya Capital Investors L.P., which Mr. Li Lu has been running continuously since its inception on January 1, 1998. We embrace the value investment principles of Benjamin Graham, Warren Buffett, and Charles Munger, and today primarily focus on publicly traded companies in Asia, with an emphasis on China. We aim to achieve superior returns by being long-term owners of high quality companies with substantial “economic moat”, great growth potential, and run by trust-worthy people. Some of our holdings date back to our inception twenty years ago.

Our client base consists mainly of university endowments, foundations, family offices, individuals, and pension plans. Our partnership is generally closed to new partners, but we selectively hold discussions with referrals of current partners.
