# Building Leading Healthcare Companies

Partnering with  
healthcare companies

***Enhanced

Partners is a***

Capital is just the first step. We work hand in hand with company leadership to drive intelligent strategy, build great teams, develop lasting operational infrastructure and assemble meaningful connections with our network of executives. We know that success in healthcare starts with the people, from managers to providers, and we seek to build alignment and foster a compelling growth oriented culture. We are seasoned experts with over 100 years of combined healthcare experience and exited investments in over 20 subsectors across the healthcare industry. Our team is focused on helping growing companies achieve their next significant milestone and beyond.

## Our Mission

Our mission is to partner with founders and executives to build world class healthcare organizations. We invest in teams, in culture, in alignment and in differentiation to create the foundation for each company to take market leading positions in their respective sectors. We want to attract the best people in the world to our team. We endeavor to invest in companies that improve cost, quality and access to better healthcare. We are serious about what we do and the responsibility entailed by serving the healthcare industry and our investment partners.
