

Helping you build a financial future,
no matter what step you're on.

At Financial Advocate for You, we are working for your benefit every step of the way by providing advice suited to your goals and values. We work with clients on a fee-only basis, meaning we do not sell financial products and do not accept commissions of any kind. This minimizes conflicts of interest and allows us to focus on what's best for your needs.

Financial Advocate For You is an office of Garrett Investment Advisors, LLC, which is a nationwide network of independent, fee-only financial planners who strive to make competent financial advice accessible to all. We operate free from sales quotas so you can be assured that we're never incentivized to sell a certain product or make a specific referral. The rewards we get for our work come from staying true to our values and seeing our clients succeed in their goals.

"Everyone is different and has their own goals for what they want to do with their money. I work with each client in a way that's tailored to them and their needs. I can even provide advice in just one area if that's what they want. Not every client needs to come in for a broad-based plan."
