Our story

Our story

It all began in South Africa in 1991, where we were a small start-up asset manager offering domestic strategies in an emerging market. Over twenty five years of growth later we're an international business managing approximately \$145.2 billion (31.03.19) for clients based all over the world.

Investec Asset Management provides investment products and services to institutions, advisory clients and individuals. Our clients include pension funds, central banks, sovereign wealth funds, insurers, foundations, financial advisers and individual investors.
