Stafford works with a wide range of institutions to deliver returns through active investing across the private markets. We work diligently and creatively to find the best investment opportunities across a range of market sectors. We access these opportunities through a sustainable blend of primary, secondary and co-investments.

Stafford is owned entirely by its principals - principals who have spent their careers investing in the private markets on behalf of clients with relationships spanning decades. While underpinned by investment performance, Stafford supports clients with complete integrity, open communication and a philosophy of responsible investing.

RESPONSIBLE INVESTING

We believe that environmental, social and governance ("ESG") factors are intrinsic to the investment environment in which Stafford operates. We recognize our responsibility as an investor to contribute to a more sustainable financial system by taking a long-term, responsible approach to investing across private market funds and assets. We recognise our special role as stewards of money entrusted to us by our institutional clients, who in turn manage money on behalf of their investors. As active investors, we play an important role in ensuring our investments uphold commonly accepted standards of environmental protection, human rights, and good governance in a way that will enhance and underpin the financial returns that our investors expect of us and add long term value to the community of which we are a part.
