

Supporting advisors serving fiduciaries.

Fiduciary Advisor Advocates (FAA) is a community of like-minded advisors creating new possibilities in fiduciary enhancement and scalability. In particular, FAA offers an Integrated Fiduciary Program which provides:

- Fiduciary protocol throughout the entire investment management process.
- A scalable, repeatable and defensible process for both advisors and their clients.
- Full transparency and clarity regarding who, and how much, each service provider is paid.
- An institutional approach for smaller asset pools that has generally been reserved for very large, multi-billion dollar funds.

Scalable, Fiduciary, Integrated.
