Portfolio Company Employees

All figures are presented as of December 31, 2017. The number of Portfolio Company Employees is approximate and is a good faith estimate of GPB Capital based on data current as of December 31, 2017. The total number of "Portfolio Companies" includes both current and past Portfolio Companies, and includes (i) the number of individual Dealership Franchises (as defined below) controlled by GPB Capital, including franchises that are currently awaiting manufacturer approval; (ii) all other acquired businesses; (iii) debt investments; and (iv) each parcel of land if owned regardless of whether or not the land is associated with an acquired business that has already been included in the total number of portfolio companies. "Dealership Franchises" includes each

manufacturer franchise and is not limited to the number of rooftops (i.e., a single location and storefront may contain one or more manufacturer franchises, each of which would be treated as a separate Dealership Franchise).
