Our philosophy

We believe that a rigorous, fundamental investment process which focuses on the most attractive securities in the income universe can help produce improved risk adjusted returns for clients.

**Low correlation to
traditional asset
classes**

**Yield advantage to
traditional securities**

**Opportunities in an
inefficient sector**

Core plus fixed income

We believe a portfolio with general target of 70% core fixed income securities provides a foundation for the portfolio. The Core Plus Fixed Income strategy seeks to add value through three major themes: global flexibility, low correlation amongst sectors and a relative value approach with emphasis on high quality and high current yield.
