What our customers say

Easy LMS has allowed us to transition from sending trainings via email, to an easy to navigate platform that our employees can easily access and reference as they are onboarding with the company. We are also able to track performance on trainings, so that we can ensure all employees receive the trainings they need to succeed!

Easy LMS, with the Academy add-on, has allowed us to deliver training and assessments to over 200 specialists to date, with this number growing week to week. With this, our accreditation process has been awarded official LIBF accreditation as a body of learning for specialist mortgages, something that we believe is not available anywhere else in the market.
