

INDUSTRY-LEADING FAMILIES ANCHOR OUR **PRIVATE INVESTMENT MODEL**

WELCOME TO 1K1V

# ONE THOUSAND & ONE VOICES<sup>®</sup> OR **1K1V<sup>®</sup>** WAS DESIGNED AROUND THE THEMES OF **FAMILIES, CAPITAL AND PROSPERITY.**

1K1V uses the best of what private equity investment has to offer with the Intellectual Capital, Relational Capital and Financial Capital—or Three-Dimensional Capital—of

most from Africa's rising middle class such as consumer/retail, agribusiness, logistics/distribution and manufacturing. Target businesses include those with \$2-15 million of EBITDA with

industry-leading family offices from around the globe.

1K1V invests in companies headquartered in, or with significant operations in Sub-Saharan Africa's "rising markets"—those regions where our Three-Dimensional Capital can be leveraged in high-growth economies with the requisite socio-political stability. 1K1V focuses on those industries benefiting

significant growth trajectories, those with leading market share and sustainable competitive advantages and those family-owned businesses (which comprise the majority of Africa's companies) in which 1K1V's Three-Dimensional Capital may be deployed.

We are uniquely positioned to serve as a "bridge" for African companies in the U.S and other markets.
