

We are your **trusted** advisors, focused on creating **unique solutions** and **superior** employee benefit **outcomes**, while **improving** the **health** and **well-being** of plan participants.

## Who We Are

L.R. Webber is a full-service employee benefits consulting firm, but we are not just here to help you pick an insurance plan. L.R. Webber believes in innovation that makes your job easier and provides the solutions you need. We have narrowed this into three fundamental principles: we believe every employer should have a population health strategy, be compliant and offer a superior employee experience.

# What We Do

At L.R. Webber, we understand that making decisions regarding your employee benefit programs and services can be overwhelming. We also know it can be a leap of faith when finding a trusted partner to help guide you through the often-times challenging process. Here at L.R. Webber, we are committed to finding the RIGHT solution for you and not just selling a product or service. As such, we employ the following key principles that embody the overarching goals and values of L.R. Webber:

We create superior employee benefit outcomes while improving the health and well-being of plan participants.

We offer options and not just products. We provide solutions and not just a proposal with prices and numbers on a spreadsheet.

We provide consultative and turnkey solutions for all your employee benefit and retirement planning needs.

We use data analytics to create transparency and cost control in unique healthcare environments.

## Who We Serve

For nearly 50 years, we have maintained a robust client base, representing a diverse group of dynamic professions. We have served broad array of banking institutions, healthcare and senior services providers, nonprofit organizations, associations, local school districts and private/charter schools. We pride ourselves in being your strategic advisor, becoming knowledgeable in your core business so that we can align you with the best possible solutions.

## Our Affiliations & Value Added Partners

## We Love Our Clients! They Love Us!

*"Before we joined the Consortium, we were under the control of Insurance Companies that would just arbitrarily increase the costs and say, "sorry, this is the best we could do." Double-digit health insurance increases with no explanation is not a positive for employee engagement. Now, with the combined buying power of 34 banks we can still keep costs relatively stable, even if we had a year where there were many claims. The Consortium also provides the opportunity to become more educated about healthcare and its funding which is valuable given the uncertainty of the future."*
