Identity Theft | Texas Benefits Consultants

by admin in Custom Content, Identity Theft

Recently, the “Happiest Place on Earth” wasn’t living up to its name for many families. For almost a full year, malicious software had been installed on point-of-sale systems at several Earl Enterprises restaurants. This software then captured debit and credit card numbers, expiration dates, and cardholder names of users purchasing food at these venues. Identity theft has become too commonplace in our day and age...
