### **Our goal is simple - Help you maximize your net worth, while minimizing fees. (/why-us)**

At Highclere Capital, you come first. You have worked hard to build your savings, it is time to stop overpaying advisors and mutual fund providers for lackluster performance. (/why-us)

Many other advisors may choose to invest you in multi-asset mutual funds simply because they receive remuneration to do so. We believe this model is flawed and puts the advisor's interests before yours. (/why-us)

The new way of managing money puts you first. There are no monetary incentives to invest our clients' assets with any fund provider. We choose the lowest-cost Exchange Traded Funds (ETFs) for our clients to preserve and grow their net worth. (/why-us)

### **Discover how much hidden fees are costing you. (/our-fee-structure)**

Over the years, technology advances have created greater transparency into how financial services firms behave, the value they offer, and the fees they charge. (/our-fee-structure)

Investors have become more sophisticated than ever before, demanding financial transparency, a clearer understanding of what they pay in fees, and advisors that put customers' best interests first. (/our-fee-structure)

Our aim at Highclere Capital is to be completely upfront and transparent with how much we charge so there are no surprises in your statements. We provide you with our bottom line fees from the beginning, so that you and your family have the financial freedom to do the activities that bring you joy. (our-fee-structure)
