

You set the goals, **we'll set the course.**

Procyon is dedicated to helping affluent families and institutions navigate the most effective path for fulfilling their financial dreams and goals.

ABOUT OUR NAME

Procyon is the name of a navigational star that has guided sailors over the millennia. It is one of only a few stars in the night sky with a twilight appearance and the brightness to help with navigation. To the naked eye, Procyon appears as the eighth brightest star, but it actually a binary star – two stars closely orbiting each other in the constellation Canis Minor. We chose Procyon as a fitting name for our firm with our long, proud tradition of helping people along their journey towards achieving their goals. Plus, like Procyon’s two stars, we have a dual complementary focus on Institutional Consulting and Private Wealth Management.
