BACKING STRONG MANAGEMENT

Our investment philosophy is to make control and co-control investments in companies that have strong management teams in the government / defense, IT and software solutions, business and healthcare services sectors as well as select general and industrial businesses. We're here to partner with management teams and rely on them to operate their businesses. We provide strategic, operating and financial support to our portfolio companies to increase value over time, but generally avoid turn-arounds. We are flexible in deal structure, and have a long-term focus on significant capital appreciation.
