

ABOUT WARRINGTON

Warrington Asset Management is an alternative asset manager founded by Scott C. Kimple in 1997. This alternative investment strategy focuses on trading options on S&P 500 Index Futures, primarily using spreads, and has a 20+ year track record delivering consistent, non-correlated returns with a strong focus on risk management. Prior to January of 2015, Warrington was an independent but affiliated group within Morgan Stanley (and predecessor firms) and only available to their customers. Warrington is registered with the CFTC as a CPO and CTA and is a member of the NFA.

This site is presented for information purposes only. It is intended for your personal, non-commercial use. No information or opinions contained in this site constitute a solicitation or offer by Warrington to buy or sell any securities or commodity interests, or to furnish any investment advice or service.

This site is intended as a general introduction to Warrington and its products. It does not provide specific investment advice nor does it represent that the services described are suitable for any specific investor. Moreover, the information contained in this site does not provide a basis for making a fully informed investment decision. Those considering an investment in a Warrington sponsored product should request a copy of the applicable Disclosure Document or Private Placement Memorandum which contain important legal disclosures and risk factors.

Also, please note that investments in markets traded by Warrington involve significant risk. The risk of loss in trading commodity interests can be substantial. Therefore, you should consider carefully whether such trading is suitable for you. Trading in commodity interests often involves the use of leverage which can amplify both

gains and losses. All investments in commodity interests should be made with risk capital only as investors could lose all or substantially all of their investment. Past performance is not indicative of future results. Information contained on this site, including pricing, valuation, and commentary on any markets traded by Warrington, reflects Warrington's internal analysis and other information available at either the time such information was posted on the site or as otherwise at the date indicated. While any opinions, commentaries, data, pricing and all other information contained on this site are believed to be reliable, Warrington cannot and does not guarantee its accuracy, timeliness or completeness, nor is Warrington under any obligation to update such information.
