

Registered Investment Adviser (RIA)

PMAdvisers is a registered investment adviser (RIA), registered with the Securities and Exchange Commission (SEC).

We are investment advisers

We do not collect money. Our clients have their accounts with authorized brokers/custodians or other financial institutions.

We specialize

We provide objective financial planning services to institutions, qualified individual investors and families.

We are on your side

We Provide advise based on what's best for you. Our success depends on your success.

WHO WE SERVE

PMAdvisers is a firm specialized in portfolio management in the U.S. securities markets. Our advisory services are particularly aimed at qualified international investors (institutions, families or individuals) who already have their money in the United States, and who wish to improve their returns. Our objective is to enable them to obtain greater income from their investments.

We know that most of the money that international investors have in the United States is in low-yield instruments such as savings accounts, Money Market accounts, CDs or ultraconservative mutual funds, whose returns do not exceed 2 % per annum.

Our offer consists of managing these assets in an efficient way, making them generate a consistent return, under strict risk control.

Remember that we are professionals specialized in Wall Street markets and registered with the **SEC (Securities and Exchange Commission)**, the regulatory body for the securities markets in the United States. We are highly experienced advisers.
