

You moved on from other outdated things.

Introducing the future for challenging wind downs of investment funds.

[FTI Capital Management](#) offers a new alternative to maximise returns for investors in a sensible timescale. We are an SEC Registered Investment Adviser with the ability to deploy leading industry experts worldwide, and return capital in a focused and cost effective way.

What you get

How it works

Extract value for
investors

- More sophisticated approach than director-led or liquidation wind downs with value generation at its core.
- Incentivised to maximise value from remaining assets in a sensible timescale.
- Focus on minimising ongoing fees and expenses.

Flexible and value driven
fee structures

Strong track
record

SEC registered investment adviser
