# How We Work

## Our Management Style

Carbon free, fossil fuel free. We look for emerging trends and companies in all the sectors of the economy which are looking to prosper in the changing years ahead. We research the financial health of companies in these sectors to try and identify the leaders in the emerging trends of tomorrow.

## Shareholder Advocacy

Harrington Investments is one of the pioneers in shareholder advocacy. For more than 30 years we have engaged and persuaded more than 120 publicly traded corporations to increase their economic, social and environmental accountability and responsibility.

## Our History

Harrington Investments was incorporated in 1984, making it one of the longest-standing SRI firms in the country. For more than 30 years, Harrington has believed what people invest in – or don't invest in – can have a huge impact on governments, laws, economics, and on creating more just societies around the world.

Harrington Investments has been helping clients like you navigate the shifting financial markets for more than thirty years. A lot has

changed in that time, but our principles have not.

We continue to provide investment advisory services for investors who want their portfolios to serve progressive environmental and social objectives while yielding positive long-term returns.

We are confident you will find there has never been a more exciting time to be a part of the socially responsible investment movement.
