Enrollment ends Friday, May 17, 2019 at 5PM CT.

FOR OVER 15 YEARS, SNIDER ADVISORS HAS TAUGHT THOUSANDS OF INVESTORS THE SAME COVERED CALL STRATEGY WE USE TO PROFESSIONALLY MANAGE OUR CLIENT'S PORTFOLIOS.

IF YOU ARE FRUSTRATED WITH YOUR CURRENT RESULTS, IT'S TIME TO DO SOMETHING DIFFERENT.

Does opening your account statement make you nervous? Did the market declines at the end of 2018 cause you to panic?

Investors allow poor performance to extend too long. If you think you can do better or you aren't getting the results you expect from your portfolio, now is the time to try the Snider Investment Method.

Our strategy, the Snider Investment Method, enables our clients to generate a bigger portfolio paycheck through cash-flow investing. This monthly income creates a better, more financially secure retirement.

CONTROLLING YOUR OWN INVESTMENTS DOESN'T MEAN YOU NEED TO DO IT ALONE.

Although we manage money for many of our clients, a majority use our strategy and place the trades in their accounts on their own. We were founded on the emphasis of financial education and

empowering the individual investor to control, understand, and manage their money.

If you've been making investment decisions on your own but struggle with a consistent plan, the Snider Investment Method is your solution. We help our investors know which stocks to buy, when to sell, and how to boost the income from a stock portfolio.

Covered calls are a great tool to improve your investment results, but you need to have a concrete plan in place to benefit from their capabilities.

**INVEST SO YOU CAN GENERATE INCOME IN BULL AND
BEAR MARKETS.**

The popular option strategy of selling covered calls is at the core of the Snider Investment Method. A covered call is a conservative option strategy where you sell a call option against shares of stock

you own.

Using covered calls to generate income is not new or unique. In fact, it is one of the most widely used options strategies and touted as one of the most conservative. But covered calls are not without their pitfalls and work best within the context of a comprehensive plan.

The Snider Investment Method Online Course will help you answer:

- What stocks are best suited for your covered calls?
- What strike price and expiration should you sell?
- How much money should be allocated in a particular stock?
- What do you do if your stock appreciates in price?
- What do you do if your stock drops in price?
- How many option contracts should you sell against you stock?

WHAT IS THE SNIDER INVESTMENT METHOD?

A **LONG-TERM STRATEGY** DESIGNED TO CREATE INCOME FROM YOUR PORTFOLIO AND ENSURE **CASH FLOW IN RETIREMENT.**

A COMBINATION OF **STOCK, OPTIONS, AND CASH**, ALONG WITH SPECIFIC TECHNIQUES APPLIED IN A PARTICULAR SEQUENCE, TO **MAXIMIZE YOUR PORTFOLIO'S INCOME** POTENTIAL.

We will teach you the step-by-step process we've used for over a decade to manage client assets. You will learn everything you need to know to manage your own portfolio and finances like a smart money manager. You will learn how to trade the Snider Investment Method in your own portfolio.

We provide hands-on, over-your-shoulder assistance, so you're never alone. This Online Course is not merely education, but implementation, as we guide you through the stock investing, trading and cash management activities of the Snider Method.

The Snider Method also puts you in the driver's seat. Because you know how to manage your own portfolio, there is no conflict of interest. You are in control. Imagine not having to call an advisor to figure out what's going on with your money!

You have greater peace of mind when your portfolio can produce more spendable income and when you know exactly how your money is invested. If your definition of a successful retirement is like ours, you're going to love our Snider Investment Method Online Course.

Fits both novice and experienced investors.

We've taught all levels of investors. Some placed their first stock trade after our course, and others have traded options for many years.

Doesn't take a lot of time

We are not a day trading strategy. Our clients trade just 1 day each month. You won't be tied to a computer each day watching your portfolio.

Eliminates the guesswork

We have a rule for every step of the way. Never will you be asking yourself what to do next or trying to predict where the markets will go next.

Keeps your emotions in check

Emotions, including Fear and Greed, cause investors to make the wrong decisions time after time.

Long-term approach to investing

This is not a get rich quick approach to investing. You can use the Snider Method in all different markets for the rest of your life.

You're Not Alone

Our team is here to help you get started and answer your questions for many years in the future. We don't leave you hanging after the course.

Your Instructor

Shelley Seagler – Director of Education

As our Director of Education, Shelley brings over 25 years of experience in group training and facilitation. In 2005, Shelley was handpicked by our founder, Kim Snider, to take over all aspects of Snider Method education.

As the instructor of our Snider Method workshop and the creator of our Snider Method Online Course, she has taught thousands of people how to competently manage their investments. Shelley also regularly teaches investment webinars for our preferred brokerage firm, Ally Invest.

Our clients connect with Shelley's unique ability to take complex topics and teach them in a way even the most novice investor can understand.

Shelley graduated cum laude from Texas Woman's University in Denton, TX where she received a Bachelor of Science degree. In addition, she has passed the Series 65 (Uniform Investment Adviser Law Examination FINRA) qualifying exam and is a licensed insurance agent.

She is a member of the Association for Talent Development and has been recognized as a Five Star Wealth Manager by Texas Monthly Magazine for several years.

📈 ACCESS TO LATTCO

Lattco is our custom designed software to help you invest using the Snider Method. It starts by selecting the best covered call combinations for your account but also keeps detailed records of each trade. Our highest level will guide you through placing each of your trades, incorporate our best income earning techniques, and track performance down to the dollar.

📖 SUPPORT, WORKSHOP MANUAL, & CHECKLISTS

You are not alone. We give you everything you need to learn the material and place your first trades. This includes detailed instructions and checklists to guide you each step of the way. Plus, all our advisors are just a phone call, live chat, or email away from answering your questions directly.

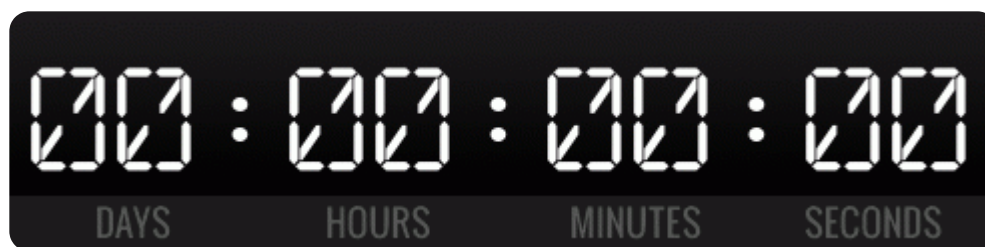

REQUIREMENTS TO USE THE SNIDER INVESTMENT METHOD:

You must have a minimum investment of at least \$25,000 cash. You cannot aggregate accounts to meet this minimum if they can't be combined (for example, your IRA and your spouse's IRA). You can use just about any type

of account in the Snider Method including a taxable account, IRA, Roth IRA, SEP, SIMPLE, and trust accounts.

You must learn the Snider Method. The best way to do this is to sign up for our 6-month online course. You will learn everything you need to get started in the first month. You will also have access to all our resources, tools, technology, and support for the entirety of your course.

SPECIAL PRICING

Online Course

YOU CAN CANCEL ANYTIME – ANY MONTH – AND RECEIVE A FULL REFUND FOR THAT MONTH'S TUITION.

**And now – it's time to truly take
action!**

QUESTIONS?

What trading experience do I need?

None! The Snider Investment Method is designed to be used by novice and first time investors, in addition to those with a larger amount of investment experience.

How long is the course?

The course is broken into 4 main sections with over 20 lessons. If you sat down and took all the material at once, it will take approximately 6 hours. All the lessons are on-demand so you can start, stop, and replay any lesson.

What broker do you recommend for trading?

Our recommended broker for clients is Ally Invest. Ally Invest offers a platform that allows clients to easily place stock and options trades, link their accounts to our Lattco software, and grants preferential commission rates to Snider Advisors clients.

You can learn more about Ally Invest, and the steps for opening and funding an account with them, by clicking [this link](https://www.snideradvisors.com/ally) (<https://www.snideradvisors.com/ally>).

Can I do this in an IRA?

Yes! The Snider Investment Method can be used in nearly all types of retirement accounts (IRAs, ROTH, etc.) as well as with taxable investment accounts. For 401(k) accounts, we would recommend that you check with the plan administrator beforehand to determine if the plan has a brokerage window and will allow you to sell options.

Can I just hire you to manage my money?

We do offer full asset management services for clients who do not have the ability to trade their own accounts each month. If you would like to learn more about our asset management services, please see [this link](https://www.snideradvisors.com/asset-management/) (<https://www.snideradvisors.com/asset-management/>).

I've heard options are risky. Is that true?

There is always a certain level of risk that comes with any stock market investment. The Snider Investment Method utilizes covered call options and cash secured put options, which are used to reduce the risk of stock market investments. Using options to speculate or for leverage can be risky. The Method does not use options for these purposes.

How much money does it take to get started?

The minimum investment for an account trading the Snider Investment Method is \$25,000. This is the lowest amount that we have determined is appropriate for a client to be able to make repeated purchases of a stock position, as may be necessary when trading the Snider Method.

Can I view the lessons offline?

The course modules are web based; you will need to be online in order to view them.

Will I always have access to the course?

You will continue to have access to the course as long as you remain a client of Snider Advisors. This can be done for as little as \$10 per month.

Can my spouse take the course? If so, how much?

Your spouse can view the course alongside of you at no additional cost. Attending a live event or separate login information may incur additional charges.

What is your refund policy?

We offer a 30 day money back guarantee for the full cost of the course. If at any point in the 30 days after you purchase the course you decide that it is not right for you, simply contact us, and we will refund you the payment for the course in full.

What happens if the market goes down?

The Snider Investment Method does not focus on the fluctuations of the stock market on a day to day basis. In the event of a market downturn, we will continue to trade the Method as usual. The Method utilizes dollar cost averaging when purchasing shares for a position, allowing us the opportunity to continue to sell options against our shares and generate income, even in times of a declining stock market.
