

Investing in distress – A gold mine or land mine?

We are witnessing a once in a lifetime fire-sale of assets in India and what makes it exciting is that certain strategic assets can be acquired at a deep discount to its replacement value. Assets that have limited operational issues and are only financial distressed can make for a good acquisition.

HOW INDIA'S SERVICES SECTOR IS A PERFECT SPRINGBOARD FOR AUTOMATION

Voice recognition software monitors quality of interaction between humans and the external world and has the ability to escalate matters and intervene in real time. Gone are the days where supervisors walked the aisles to troubleshoot.
