As bankers, we understand the care that must go into sharing confidential documents. With Intralinks, there's only one source to check no matter how many documents there are. That makes it easier to maintain security and control, so we don't have to worry about security breaches or people sharing documents inappropriately.

collaboration across organizational, corporate and geographical boundaries. Intralinks' secure platform provides tools for file sync and secure file sharing, collaborative workspaces and virtual data room (VDR) solutions. As a leading virtual data room company, Intralinks' secure VDR solution allows companies to securely share and manage sensitive documents for due diligence in M&A without worrying about hacks, leaks or data loss. Intralinks tools for the deal lifecycle help to source, market and manage deals more quickly and accurately. Intralinks secure collaboration platform also provides solutions for legal document management, capital raising, customer managed keys, clinical trial remote monitoring, regulatory risk management and many other applications in a wide variety of industries.
