INVESTMENT PROCESS METHODOLOGY – OVERVIEW

QUANTITATIVE

QUALITATIVE

38) Investment Fiduciaries follows a pass/fail criteria, on a scale of 0 to 100 (with 100 being the best) for active managers. Our methodology incorporates both quantitative and qualitative factors in evaluating fund managers and their investment strategies. Approximately 80 percent of the fund's score is quantitative which incorporates such factors as style, risk/return, and peer group ranking. The remaining 20 percent is qualitative, taking into account things such as manager tenure and the fund's expense ratio relative to the average fund in the category.
