WELCOME TO EURO PACIFIC CAPITAL

As a division of A.G.P. /
Alliance Global Partners,
an SEC registered
investment advisor and
broker-dealer, we seek
to help Americans
prepare for changes in
the global economy
that could erode the
value of the dollar and
US dollar-based
investments. Our stock-
focused wealth
management program
combines independent
thinking with
worldwide research to
provide Americans with
investment options
that are aligned with
global trends that may
be ignored by
mainstream advisors.

PETER SCHIFF'S ECONOMIC COMMENTARY

The Fed Stops Pretending

Friday June 7, 2019

Well, it didn't take much and it didn't take long. After years of delays, a tentative start, many cautious pauses along the way, and a top speed that never really hit cruising velocity, the Fed...

Trump's Last Stand

Thursday May 16, 2019

General George Custer met his doom charging into a battle he thought he could win, against an opponent he did not understand. Based on his views about the fast-emerging trade war with China, it loo...

Investing in foreign securities involves risks, such as currency fluctuation, political risk, economic changes, and market risks. Precious metals and commodities in general are volatile, speculative, and high-risk investments. As with all investments, an investor should carefully consider his investment objectives and risk tolerance as well as any fees and/or expenses associated with such an investment before investing. International investing may not be suitable for all investors.

Dividend yields change as stock prices change, and companies may change or cancel dividend payments in the future. The fluctuation of foreign currency exchange rates will impact your investment returns. Past performance does not guarantee future returns, investments may increase or decrease in value and you may lose money.

Our investment strategies are based partially on Peter Schiff's personal economic forecasts which may not occur. His views are outside of the mainstream of current economic thought. Investors should carefully consider these facts before implementing our strategy.
