Understanding Your Goals

Founded in 1986, Larimer Capital is a well-respected financial planning and wealth management firm. We have built a dedicated team of experienced and knowledgeable advisors whose mission is to serve the diverse needs of private business owners and individual investors through the creation of individually designed financial strategies.

We serve clients who come from a variety of backgrounds and represent all stages of wealth accumulation, retirement and legacy planning. They are people who are genuine, forward thinking, proactive, open minded and place a high value on the planning process. They tend to be “builders” who are interested in the legacy they leave the world and their family, not only in financial terms, but in personal ones as well.

As advisors to such people, we have found the most important attributes we provide are the principles of objectivity, transparency, commitment to our planning process, a collaborative approach and unwavering client service. These attributes are the foundation of our mission and what drives us as we help guide our clients in reaching their financial goals with confidence.
