THE ALTA APPROACH

LOOKING AT QUALITY FROM A UNIQUE PERSPECTIVE

At Alta Capital Management, we have earned the confidence of our clients through our actions and the results we achieve. Our disciplined approach of identifying quality growth stocks, while maintaining a focus on the long-term investment horizon, has endured for over 35 years.

Since our beginnings in 1981, we have carefully nurtured and defined how we measure success on our own terms. We see actual results in the relationships

we have established with our clients, the tenure and engagement of our team, and the consistency in which we manage accounts.

We are proud of the unique space we inhabit among investment managers. We follow a clearly delineated and highly disciplined process that allows us to offer concentrated portfolios featuring high active share. Avoiding the chase for short-term results, providing greater downside risk protection and adhering to our discipline, instills confidence in our clients.

OUR STRATEGIES

- All-Cap Strategy
- Large-Cap Strategy
- Select Strategy

HOW TO INVEST >

OUR APPROACH

Through intensive, proprietary research methods, we look for high-quality businesses that can grow sustainable revenue and consistently generate high free cash flow.
