

Global Environment Fund (GEF) is a global alternative asset manager established in 1990 to invest in high-growth clean energy, energy and resource efficiency, environmental, and sustainable natural resource management industries throughout the world. Our investments finance innovative businesses that deploy proven technologies, products and services that incrementally make the world economy run with less energy, utilize fewer raw materials, promote improved environmental quality

companies operating in these sectors worldwide, both directly from its own balance sheet and through the investment funds it manages.

INVESTMENT STRATEGY

GEF seeks to create long term, sustainable value for our investors, by partnering with growing, dynamic companies that are driving efficiency for their customers, enabling them to achieve their business and financial goals.
