# Navellier Custom Solutions

---

Let me be the first to welcome you to Navellier. I began publishing my quantitative analysis on growth stocks back in 1980. Seven years later, I began managing private accounts for high-net-worth individuals.

In the 30 years since, my firm has grown to include seasoned portfolio managers, analysts and investment strategists that all work together to create custom solutions for thousands of individual investors.

Navellier has become the trusted source for customized investor solutions to manage their assets in a private account, mutual fund, or defensive portfolio. Today, I invite you to have a real conversation about your investment strategy with my team. Contact us today for a complete and confidential portfolio review.
