WELCOME

East End Financial Group, Inc. (EEFG) provides comprehensive financial planning services for successful small businesses and high-net-worth individuals.

Since 1980, we have worked with clients here on the East End to develop and execute effective, sustainable strategies specifically designed to meet your personal and financial goals. We partner with our clients and — once your plan is in place — work with both you *and* your professional service providers, adjusting as needed to ensure that you always remain on track to meet your long-term objectives.

Although our clients enjoy access to the same planning, research and investment instruments offered by the major financial houses, because we are a truly independent, full-service advisory firm, we are accountable to no one but our clients.

This unique mix of flexibility *and* capability enables us to remain truly objective and focused on your needs throughout the process of assessment, development and ongoing execution of customized solutions that specifically meet your individual goals and aspirations.

Perhaps most importantly, at EEFG our clients enjoy a level of personal service and accessibility that has become increasingly rare in today's financial services environment.

In short, we provide true concierge-level service, and are *always* there for you whenever you need us.

If you are a new or prospective client we invite you to explore our site and contact us directly with any questions you might have. And of course, if you are already a client, as always feel free get in touch with us at any time.

“ Our unceasing Commitment to Excellence has enabled us to provide comprehensive financial planning services for over three decades.”

—John Kosinski, Founder

With nearly a century of combined experience spanning investment, advisory, financial, estate and retirement planning, our highly trained professionals are uniquely

qualified to both understand and meet the challenges faced by our clients here on the East End.
