HISTORY OF SUCCESS

KCM clients are served by seasoned professionals who have successfully managed client assets through numerous bull/bear markets, high and low interest rate environments, inflation, deflation, wars, and other challenging scenarios. This adversity has given us valuable insight and experience that we share with our clients.

Conservatism and common sense solutions have attracted corporate executives, business owners, doctors, dentists, and other successful professionals as KCM clients. They turn to us for investment strategies that are simple, fit their needs, and stand the test of time.

Since 1989, we have provided the same level of service and expertise to our clients, primarily growing through word-of-mouth referrals. We'd be happy to share with you some of the many stories of success we have been a part of over the past 25+ years!

SKILLS TO MANAGE

At KCM, we have spent years honing our financial management process. We have built a team of dedicated professionals who are committed to helping you identify and achieve your financial goals.

Over 90% of our portfolio managers and research analysts hold the Chartered Financial Analyst (CFA) designation.

Our experience is broad and deep. We have investment experts in every market sector, specialized research analysts, and a dedicated trading staff. We have a team of client service professionals that have a broad base of skills and are highly accessible. All are committed to long-term client success and personalized service.

We are also continuously improving our skillsets and staying up-to-date with current market trends and investing approaches. As a full-service firm, we have all the skills required to provide top-notch asset management for any portfolio size.
