

A Personal Message From Scott Brooks

After more than 3 decades in the business, I've teamed up with First Income Advisors to offer other RIA's and IAR's FTA Wealth Advisors.

FTA Wealth Advisors offers superior training that will help you increase your response rate, increase your appointments, and ultimately result in more sales. By learning how to re-frame the way you present yourself to your clients you will be able to increase both your insurance and investment management sales.

I know. I've done it and this is the system that I have used to build the successful practice I have today.

We are here to help you grow...

Scott Brooks

We designed FTA Wealth Advisors for you.

You're looking to protect your client's assets.

Your clients are in or near retirement.
