

# truly invested for our clients' success

With three decades of experience, Capital Dynamics specializes in mid-market corporate investing and energy infrastructure investing globally.

## **A Culture of Performance and Drive**

Our clients know we will work harder than our competition. We measure our success by the results we deliver and the loyalty of our clients. We are highly collaborative and our clients - as well as our teams - share in our mutual success.

[About Us](#)

## **Building Deep and Sustained Partnerships**

Whether our clients are global multinationals or regional investors, we're committed to creating investment solutions based on their goals. We listen, understand their requirements and then work shoulder-to-shoulder with them to design a solution.

[Investment Strategies](#)

## **A Different Type of Firm**

We attract and motivate entrepreneurial thought leaders and builders - individuals who are passionate about our clients' success and driving to new levels of performance. Our investment expertise is global across Europe, Asia and North America with 150 professionals working collaboratively in our 11 offices.

---

## **Local Government Pension Schemes (LGPS)**

We offer tailored solutions for LGPS investors and pools across our products and services.

## INVESTMENT STRATEGIES

We are deeply committed investors to the global mid-market and energy infrastructure market. Each strategy employs dedicated teams who have investment experience across multiple economic cycles.

### Mid-Market

We believe the global mid-market provides attractive value creation investing opportunities.

#### [Private Equity](#)

We offer a comprehensive range of private equity investing solutions based in the mid-market.

[primaries](#) [secondaries](#) [co-investments](#) [tailored solutions](#)

### Private Credit

We provide tailored financing solutions to support leveraged buyouts, acquisitions, business expansions, refinancings and short- to medium-term liquidity needs for mid-market companies.

[learn more](#)

### [Energy Infrastructure](#)

Our Energy Infrastructure business includes Clean Energy Infrastructure (CEI) and Clean Energy Infrastructure Credit (CEI Credit). We invest directly across all tranches of the capital structure for assets in North America and Europe.

#### Clean Energy Infrastructure

Our firm is one of the largest specialized renewable investment managers in the world. We invest directly in commercially clean and low-carbon power generation assets and related infrastructure in North America and Europe.

[learn more](#)

#### Clean Energy Infrastructure Credit

We finance assets in North America across the power generation and midstream asset classes. We seek investment opportunities in operational and construction-ready assets.

### Partnerships

Our partnerships drive our success. With more than three decades of experience, we have built long-term relationships with institutional investors, financial advisors, fund managers, banks and consultants. We are truly invested in the mutual success of our partnerships.

## **Consultants**

We meet regularly with consultants to discuss how our approach and investment strategies can best serve their clients.

## **Mid-Market Companies**

We provide private capital solutions to private equity-backed mid-market companies across diverse industries.

## **Private Equity Managers**

We have relationships with more than 350 fund managers globally with expertise across different strategies and sectors.

## **Private Wealth Managers**

We collaborate with wealth management platforms, registered investment advisors and multi-family offices.

## **Project Deal Partners**

Our energy infrastructure investment team is well-equipped to work one-on-one with other managers and investors to complete complex transactions.

## **Secondary Deal Partners**

We acquire limited partnership interests in funds and managers in often complex situations.
