

Success by Design

AQS Asset Management, LLC is a registered investment advisor serving the unique portfolio management needs of insurers. Founded in 2003, AQS represents the confluence of technology and financial engineering with sophisticated actuarial business models and real-time opportunity sets to design a portfolio that produces tangible earnings and surplus development.

Asset management, risk mitigation and capital development solutions combined with advancements in asset liability technology allow AQS to design customized business strategies and portfolio solutions.

Simply put, we achieve

Success by Design.
