TERRAPIN PARTNERS

About Us

Terrapin Partners is a boutique investment firm founded in 1998. We have a history of venture and private equity investing, direct lending, and completing multiple special purpose acquisition company (SPAC) transactions.

We commit capital to a variety of sectors, industries, and markets, at every stage of corporate development and in both equity and debt.

Private Equity

We are opportunistic, agile, and experienced investors. We generally seek high-growth, emerging businesses that are applying new technologies or business models to traditional industries. We also seek stable and profitable businesses and assets that can benefit from our capital, experience, and relationships. ([see Private Equity](#)).

SPAC

Special purpose acquisition companies, or SPACs, are publicly-traded blank check companies. After raising a meaningful amount of cash in an initial public offering, a SPAC seeks to find and combine with a business that values the SPAC's public listing, its capital, and the experience and support of the SPAC's management team. A SPAC business combination can be an alternative to the traditional IPO process for the right private company. SPACs can also serve as recapitalization vehicles for public companies or their divisions in certain circumstances.

We are one of the few teams to have sponsored three SPACs that have successfully completed three business combinations. In aggregate, we have raised more than \$700 million in IPO equity

and committed capital ([Forward Purchase Agreements](#)), and more than \$1.5 billion in debt. ([see SPAC](#)).

Lending

[Terrapin Lending Company](#) offers bespoke loans that are tailored to meet a borrower's unique needs, both in terms of collateral and cash flow. (see [Lending](#))
