*Mt. Ranier, Central Cascades*

Tieton Capital Management is a long only, independently owned, small value investment management firm headquartered in Yakima, Washington. We have an unwavering commitment to our mission, which is to increase our clients wealth.

The Investment Team’s research is focused, using our intensive, internal process. The Team consistently visits with companies owned in client portfolios and those that are being considered for purchase. We diligently work to understand the issues the companies are addressing, the industry dynamics, how the strategic plans

are being executed, and progress made relative to Tieton Capital’s identified catalysts. Tieton avoids relying on others for information; instead, we seek information directly ourselves – “We Pack Our Own Parachute.”

Small Cap Value is Tieton’s investment style and we invite you to review the Investment Philosophy section of our site to learn more about the advantages of our approach.

After reviewing our site, if you believe Tieton Capital Management may be a fit for you, or for your organization’s goals and objectives, please contact us directly. Our contact information can be found under the Contact Us tab.
