## Growth Equals Opportunity

We're software experts who invest in growth. Our capital and expertise give companies the resources and know-how to accelerate growth – visionary executives do the rest. Insight reflects the diversity, the resolve, and the hustle of our home-base, New York City, and we apply this energy to support the companies and leadership teams we invest in across the world. Whether through venture capital or private equity – across our people and our portfolio – our conviction is that **growth equals opportunity**.
