## Investors in the Healthcare Industry

Altaris Capital Partners, LLC is an investment firm focused exclusively on the healthcare industry. Altaris is based in New York and actively manages \$2.6 billion of equity capital.

### ABOUT

Altaris is an investment firm focused exclusively on the healthcare industry

### APPROACH

We target companies that deliver value to the healthcare system

### RECENT NEWS

Clearwater Streamlines Risk Analysis with its “Component Expert System” Technology

# About

Altaris Capital Partners, LLC is an investment firm focused exclusively on the healthcare industry. We invest in businesses that deliver value to the healthcare system by improving patient outcomes, eliminating unnecessary costs, increasing efficiency and aligning stakeholder incentives. Since inception, we have invested in 39 portfolio companies across our four main investment funds, and today we actively manage \$2.6 billion of equity capital. Altaris is based in New York City.

## Our Values

We are committed to conducting business with fairness and integrity. Our reputation as a trustworthy partner and counterparty must be consistently evidenced and reinforced through our actions. We treat everyone with respect. We measure ourselves against high performance targets and work diligently and collaboratively to achieve our goals. These values form the foundation of the Altaris culture and enable the successful execution of our investment strategy.

## History

Altaris was founded as a healthcare-dedicated investment firm in 2003. Since that time, we have raised four, sequentially larger, investment funds and two committed co-investment vehicles.

Our industry experience enables us to be a  
knowledgeable and supportive partner

# We target companies that deliver value to the healthcare system

## Approach

We target businesses that we believe address the needs of the healthcare system by improving patient outcomes, eliminating unnecessary costs, increasing efficiency and aligning stakeholder incentives. Our areas of focus span the major verticals of the industry, including companies that operate in the pharmaceutical, medical device, provider services and healthcare insurance subsectors.

### **Commercial-stage companies with compelling business fundamentals**

We look for companies with established business models, differentiated products or service offerings, sustainable competitive advantages, and potential for growth, both organic and through acquisitions.

### **Corporate carve-outs and partnerships**

Many of our investments have been divestitures of non-core assets from, or strategic co-ownership arrangements with, corporate partners and not-for-profit healthcare systems.

### **Founder and family-backed companies**

We have a significant experience working alongside entrepreneurs and with family-owned businesses.

### **Majority and influential minority investments**

We endeavor to customize our approach to meet the unique requirements of each investment opportunity, rather than execute a rigid playbook. We will make both majority and minority investments.

### **Conservative use of leverage**

We exercise prudence in the use of debt financing to ensure that our portfolio companies have the capital structure flexibility necessary to achieve their full potential.

## Value added partners

We believe that our industry knowledge and experience enable us to be a valuable partner to our portfolio companies. We seek to harness the extensive Altaris network through efforts such as strengthening management teams, facilitating access to customers, identifying and executing acquisitions, and arranging and managing financings.

We seek to harness the extensive Altaris  
network for the benefit of our portfolio  
companies
