Company Profile

Aurora Investment Managers, LLC. (AIM) is a Registered Investment Adviser with the U.S. Securities and Exchange Commission (SEC) under the Investment Adviser Act of 1940. Our only source of compensation is derived from the fees paid by our clients, not commissions paid by third parties; therefore, our incentives are aligned with those of our clients, and our success is highly dependent upon the performance of their portfolios.

AIM invests in a variety of asset classes including, but not limited to, Domestic and International Equities as well as Fixed Income Securities with a focus on clients' specific investment needs.

At **Aurora**, we abide by strict ethical standards and cherish our integrity, which eliminates conflicts of interest between **AIM** and our clients. This assurance provides our clients with a high level of satisfaction and a sense of financial security.

Our goal is to provide client-centric investment solutions with superior customer service. Through extensive research and analysis, we work to discover opportunistic investment situations.

We have included a link to an Investment News article written by **Aurora's** Chief Investment Officer, Shakeel Dewji, in January 2009:

[Riding Out the Tides of Inflation, Deflation](#)
