000

Specialized Strategies from Boutique Sub-Advisers

Willing to Look Different

Focused Portfolios

A Fund's investment objectives, risks, charges and expenses must be considered carefully before investing. The prospectus for each Fund contains this and other important information about the Fund, and it may be obtained by calling 1-877-743-7820, or visiting www.castleim.com. Read it carefully before

liquidity, fluctuations in currency exchange rates, and political, diplomatic and economic conditions as well as regulatory requirements in foreign countries. There also may be risks associated with the Fund's investments in exchange traded funds, real estate investment trusts ("REITs"), significant investment in a specific sector, and non-diversification.

The risks associated with the Castle Tandem Fund are detailed in the Fund's Prospectus. Investments in the Fund are subject to common stock risk, sector risk, and investment management risk. The Fund's focus on large-capitalization companies subjects the Fund to the risks that larger companies may not be able to attain the high growth rates of smaller companies. Because the Fund may invest in companies of any size, its share price could be more volatile than a fund that invests only in large-capitalization companies. Fund holdings and asset allocations are subject to change and are not recommendations to buy or sell any security.

We define a full-market cycle as a period of time, usually measured in years, that includes both 'bearish' markets (the market trends down) and 'bullish' markets (the market trends up).
